DETAILED ACTION

1. Claims 11-9, 11 and 13-15 are pending in the instant application.

Election/Restrictions

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Applicants' claims are drawn to numerous patentably distinct Flint polypeptide sequences, each of which constitutes a patentably distinct product. Applicant is required to elect a single invention of a polypeptide, selected from the group consisting of the different variants of SEQ ID NO: 1 listed in claims 11-9, 11 and 13-15. For example, one invention would be a polypeptide having the amino acid sequence of SEQ ID NO: 1 modified by replacing a tryptophan at position 53 with aspartic acid.

The inventions listed do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the different variants of SEQ ID NO: 1 have different amino acid sequences and different biological activities, and each can be made and used without the others.

Although the classifications for these various polypeptides are overlapping, for instance 530/350, each represents a patentably distinct product with distinct physical and functional

characteristics. Further, the search for more than one product would be burdensome, because each would require separate search and consideration. Accordingly, restriction is proper.

To be fully responsive to this requirement, Applicants are **required** to point out which claims correspond to the elected invention. **Applicant is advised that this is not a species election.**

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eileen B. O'Hara, whose telephone number is (703) 308-3312. The examiner can normally be reached on Monday through Friday from 10:00 AM to 6:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yvonne Eyler can be reached at (703) 308-6564.

Official papers Before Final filed by RightFax should be directed to (703) 872-9306.
